

Product technical data sheet

SUPERARTIC 400 ECT-F TOUCH

Cod. SUA0402

General features

| Temperature range | Adjustable -40°C / -20°C | |
|------------------------------------------|------------------------------------------------------|--|
| Factory setpoint Increment | -35°C 0.1°C | |
| Ambient working class Climatic class | From +16°C to +25°C C | |
| Nominal capacity | 400 lt (14,1 cu ft) | |
| Gross capacity Net capacity | 384 lt (13,56 cu ft) 360 lt (12,72 cu ft) | |
| External dimensions (W x D x H) | 67 x 81 x 194 cm | |
| Internal dimensions (W x D x H) | 51 x 61 x 125,5 cm | |
| Net weight without any internal fittings | 132 kg | |
| Package dimensions Weight | Cardboard on pallet 71 x 87 x 212 cm weight 145 kg | |

| Structure | coated with a special antibacterial-type film, and inner 18/10 Aisi 304 stainless steel. Rounded corners and tray-type inner bottom. |
|-----------------|--------------------------------------------------------------------------------------------------------------------------------------|
| Insulation type | High-density (43 kg/m3), in-walls injected PUF, without any CFC, water-foam based. |

Insulation thickness 80 mm

Feet No.4 unidirectional rollers + No.2 stabilizing feet

No.1 solid door with ergonomic handle all door length, self-closing thanks

to the spring hinge and 90°stop position.

Energy saving functions Night & Day function

Disclaimer:

Internal fittings

Images are purely indicative. The features and the accessories of the products may differ according to model and application.

Customizable and height adjustable, it can mix independently:

Wooden crate on pallet 78 x 91 x 212 cm | weight 157 kg

• wire shelves supported by adjustable clips (dim.cm 47x60)

 extractible drawers made of aluminium, with dividers (WxDxH): cm 12x55x7,5 (nr 3 compartments)

Monocogue type, made of plasticized, non-toxic white steel exterior.

 extractible drawers made of aluminium, without dividers (WxDxH): cm 39x55x7,5

Suggested internal fittings No. 4 wire shelves

Refrigeration system

| Refrigeration | Professional, ventilated, forced, hermetic compressor type |
|---------------|--------------------------------------------------------------|
| Defrost | Automatic, adaptive, including condensate water vaporization |
| Refrigerant | Natural R290 |
| GWP ODP | 3 0 |

Electronic controller

Controller **TOUCH** controller

Electronic controller, FULL TOUCH SCREEN 7" display, resolution 0,1°C, Type of controller

easily readable from the distance, with a real time temperature graph and

all operational data always available on the homepage.

Power switch Integrated in user's interface

Security features Settable user password

Visual and acoustic for temperature alarms failures such as:

Open door

High temperature

Low temperature

Power failure, signaled when power is back.

Clogged condenser

Any functional failure/faulty parts

Latest 32 events displayed, 10 years data recorded on SD card and 1 year Data and event recording

on flash memory, downloadable from USB port

Settable temperature limits alarms

Alarm system

NTC type probes for controller board + PT100 for DMLP monitor board **Control sensors**

(optional)

Safety thermostat Included, to prevent freezing and overheating

Connectivity for remote alarms Set-up on the electronic controller board, can be remoted on request.

transmission Modbus TCP/IP protocol available for data reading

Temperature recording Full recording of temperatures and alarms data

Data export USB, SD and RJ45.

Electrical and functional data

Standard power supply 230V / 1ph / 50Hz Standard plug type Schuko type "G"

Compressor protection Overload Protector included

Power absorption/current kW 2 (Amp 8,3)

Inrush current Amp 3 Noise level <55 dBA W 315 Heat emission according to EN 12900

Hold over time at 20°C ambient (air) 5,5 h (da -40°C a 0°C)

Energy consumption at 20°C ambient 7,5 kWh/24h

Compliancy

Directive 2006/42/EC (Machine directive)

Directive 2011/65/EC (ROHS II) Directive 2015/863/ EC (ROHS III) Directive 2012/19/EC (RAEE)

Directives and regulations Directive 2014/30/EC (EMC)

Directive 2014/35/EC (LVD) Regulation (EU) 517-2014 (F-gas) Regulation (EU) 1907-2006_REACH

Available certificate

Application environment Non-flammable, non-explosive, non-corrosive, with adequate air exchange

Accessories available on request

| Visual and acoustic alarm for power failure | No.8 rechargeable batteries, AA, Ni-MH type, environmental friendly and easily replaceable, to feed power failure alarm |
|------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| External contacts (Ethernet+ potential free) terminal board | |
| Electric-digital lock with password protection | Digital lock, the door is opened by touching an icon on the display. The function may be password protected. Mechanical release key supplied for emergency opening. |
| GSM module (including buffer batteries) | Pug-in module to notify on mobile phones, via sms, overall monitoring, alarms and failures of the refrigerator |
| Converter module type 4-20mA (including contacts terminal board) | External contacts included (this accessory excludes the installation of the GSM module) |
| Wi-Fi module | Plug-in module to connect to, monitor and manage the refrigerator wirelessly |
| Compliance kit to DIN 13277 | Includes the electric digital lock, buffer batteries for power failure alarm signal and the external terminal board with potential free contact |
| DMLP TOUCH Digital Monitor | Visual, acoustic alarm and fully independent recording system, with accuracy 0,1 °C thanks to the PT100 probes used for temperature detection. DMLP will take over alarming function when installed as integrated module on the Ect-f Touch controller board. The module is fed by standard rechargeable batteries (power failure alarm batteries included) to register temperatures and events even in case of power outage. Data download and their management are made possible by CAPTURE software, supplied on board on the SD card, through which tables and graphs are created |
| PT100 product temperature simulation probe | |
| FIOCCHETTI COLD EYES cloud monitoring | Annual monitoring service, Cloud based, featuring the notification of alarms and failures from pc thanks to a dedicated app, including SMS messages and emails, also allowing the full download of recorded data. |
| FIOCCHETTI LAN SUPERVISOR | Monitoring system allowing the supervision of one or several refrigerators thanks to the access to historical data and to present equipment status. It allows the creation and export of temperature graphs of selected periods or of specific hours. A single license enables the connection of up to 100 refrigerators installed in the same building and connected to the same net (e.g., a hospital). |
| Additional wire shelf kit | |
| Extractible drawer on slides | |
| Extractible drawer without inner dividers on slides | |
| Rack 140x500x150H mm (max 3 per each shelf) | |
| Plexiglas front panel for extractible drawer | |
| Castors kit with brakes | |
| 35 mm access port with stopper | |
| Port hole mm 15 | |
| PT100 sensor with free contacts | |
| Mains voltage stabilizer | |
| Non-standard plug and cable | |
| Power 220V/60Hz | |
| Power 115V/60Hz | |
| Wooden crate package | |
